

PUA52312 Diploma of Public Safety (Emergency Management)

About ACIM Solutions

ACIM Solutions is a Registered Training Organisation. We offer a suite of learning and development programs including high quality, nationally recognised qualifications and short course programs specifically tailored to those working in government and the emergency management sector.

The program

The **Diploma of Public Safety (Emergency Management)** qualification provides the skills and knowledge required to develop leaders in operational roles in emergency or disaster management. It is suitable for paid professionals or volunteers working across the emergency or disaster management spectrum; Prevention, Preparedness, Response and Recovery (PPRR). This qualification addresses the planning for, and management of major risks in emergencies. The program's focus is on working with the community and other key stakeholders prior to, during and after an emergency incident.

Facilitators

Our facilitators have extensive backgrounds in diverse emergency management roles and in designing effective and innovative vocational education programs. We specialize in customised organisational programs. To read more about our team go to: acimsolutions.com.au/category/our-team

Pathways

This qualification is a level entry pathway into emergency management with streamlined options to upgrade to the Advanced Diploma in Public Safety (Emergency Management) and higher education.

Delivery platforms

Flexible delivery options are provided to support the learning and enable people to study at their own pace.

The program is designed to be delivered over 12 months with assistance to fast track if required. The program is open to both individuals and organisations-across Australasia using a number of platforms including workshops, eLearning, RPL, or a blended delivery format. Our interactive program offers opportunities to apply new skills in a practical hands-on way and support the ongoing those working in these critical community roles.

Assessment methods

We combine a range of assessment methods including workplace tasks, demonstrations, role-play, written reports, exercise design and conduct activities, case study reviews and project work.

Entry requirements

There are no specified entry requirements for this qualification however this program is aimed at developing leaders and a brief pre-entry assessment is required. It is preferred the learner has some experience in the emergency management sector as a paid professional or volunteer.

Fast track options

Applicants can apply for full or partial recognition (RPL) of their existing skills and knowledge relevant to the units of competence within the qualification. These may have been obtained through workplace training or experience and may reduce the number of units required to be completed. Contact ACIM Solutions to apply for a free RPL assessment.

Qualification and skill sets

We offer the full qualification as well as skill set programs which build towards the qualification. The qualification is awarded upon the successful completion of 10 units of competency. Accessing skill set programs means the learner can study selected units of competency as needed.
