

## MOCK COURT

Ever given evidence in court or at a tribunal as part of your work and wished you had been trained in what to expect first?

Ever wanted to improve your skills as a witness without having to go to legal forums such as court to practice?

ACIM Solutions offers a 'mock court' experience for Government and private sector organisations as part of our Government investigations courses and as a separate presentation series.

*Our mock court delivers a simulated interactive and high impact approach to training in court proceedings that test organisational processes and decision making.*

*We give you real-life experience on what to expect before and during a legal proceeding in a court room environment using experienced legal practitioners.*

*We design and tailor scenarios to suit the organisation using real-life examples.*

*We design the presentation to build confidence while challenging you to ensure your adherence to organisational standards around investigative process and on giving evidence as a professional.*

- Program inclusions-**
- Introduction
  - Preparing to give evidence including -statements preparation, continuity of evidence and exhibits/documents handling.
  - Court room process highlighting the concepts and practice of giving evidence in chief, cross examination and re-examination).
  - Presenting evidence professionally including tips on self-control, knowing your evidence and court room etiquette.
  - Evidence giving - A scenario based on a real event is provided along with individual witness statements to volunteer witnesses beforehand. Each witness presents to court and gives evidence in chief and is then cross examined on their evidence.
  - Feedback -A short wrap up session is presented by our legal practitioners highlighting areas for improvement and an opportunity for the witnesses to describe what they felt during the simulation.

**Flexible formats** - We offer short sessions and full day programs that are contextualised around your organisational requirements. Contact us now at [www.acimsolutions.com.au](http://www.acimsolutions.com.au)
