

AIIMS Awareness Training

22611VIC

Course in Awareness of the Australasian Inter-Service Incident Management System (AIIMS)

About the program

This nationally accredited course is entry-level training that will enable learners to gain the skills and knowledge they require to apply the AIIMS concepts to their organisational risk management arrangements.

This course is also for members of the community to apply the AIIMS concepts to managing risk in their environment.

Course content includes:

- What is AIIMS?
- AIIMS principles and underpinning concepts
- Incident and incident management
- Incident action planning

Delivery options

Individual students can complete this unit self-paced supported by online resources (as developed by AFAC).

A group option for completion of this unit is also available to organisations and allows for some contextualisation of the program. The course can be run as a face-to-face or virtual workshop. The course usually runs as:

- virtual – A full day or 2 half day virtual sessions
- onsite – A full day session

Pre-requisites There are no required pre-requisites for this program.

About ACIM Solutions

Our specialties

ACIM Solutions is a reputable Registered Training Organisation with a long history of working with organisations across Australia, particularly government and the emergency management sector.

Our nationally accredited scope focuses on investigation, compliance and emergency management programs at the Certificate IV, Diploma level and Advanced Diploma level. Our short course workshops complement these qualifications with a range of staff development options for those working in regulatory environments.

We also provide policy and procedure reviews, conduct independent debriefs and post incident processes following significant events.

Our team

The ACIM Solutions team come from a range of locations around Australia. They are all highly experienced and well-respected individuals in their area of expertise. The team takes pride in maintaining their industry currency and have the skills to transfer concepts and examples to a wide range of organisational settings.

From administration to learning support, our team works to encourage students in their training. We work with individuals and groups to help ensure everyone is included, adequately supported, and can be successful in their goals.

Our approach

For individual students undertaking qualifications we create customised learning plans that help recognise background experience and future goals. All individual students completing single units or qualifications self-paced are provided with 1-1 virtual tutorials to support their learning completion of assessments. We have a student support officer to ensure no-one is overlooked.

We meet with clients to contextualise all our organisational programs to ensure the content aligns with jurisdictional and organisational requirements. We are very flexible in the delivery format for programs to best suit the needs of the organisation and students.

All programs are designed with best practices for adult education, and we love to incorporate contemporary case studies, collaborative learning approaches and active learning strategies as much as possible.

Programs can be delivered face to face around Australia, virtually, self-paced or in a blended model of any of the these.
