

Authorised Officer Program

About the program

ACIM Solutions has created this tailored program based on nationally recognised units of competency. It has been designed to support those who are performing, or aspiring to perform, the functions of Authorised Officers within Regulatory Agencies. The powers that Authorised Officers may have as part of their role include:

- monitoring compliance in their industry
- assessing applications for approval
- conducting assessments and audits
- enforcing compliance
- investigating incidents and complaints
- providing advice and guidance to drive compliance.

There are 4 core units of competency covered in this program:

- PSPREG003 Apply regulatory powers
- PSPREG008 Act on non-compliance
- PSPINV001 Plan and initiate an investigation
- PSPREG012 Gather information through interviews.

(Other additional units may be added to this program as requested).

Delivery options

A group option for completion of this skillset is also available to organisations. The skillset can be run using a combination of face-to-face or virtual workshops and self-paced study before and after the workshops. Excluding individual work time and any virtual introduction kick-off session, this usually means for both virtual and onsite courses:

- virtual – 6 virtual half day sessions
- onsite – approx. 3 full day session

Pre-requisites There are no required pre-requisites for this program.

About ACIM Solutions

Our specialties

ACIM Solutions is a reputable Registered Training Organisation with a long history of working with organisations across Australia, particularly government and the emergency management sector.

Our nationally accredited scope focuses on investigation, compliance and emergency management programs at the Certificate IV, Diploma level and Advanced Diploma level. Our short course workshops complement these qualifications with a range of staff development options for those working in regulatory environments.

We also provide policy and procedure reviews, conduct independent debriefs and post incident processes following significant events.

Our team

The ACIM Solutions team come from a range of locations around Australia. They are all highly experienced and well-respected individuals in their area of expertise. The team takes pride in maintaining their industry currency and have the skills to transfer concepts and examples to a wide range of organisational settings.

From administration to learning support, our team works to encourage students in their training. We work with individuals and groups to help ensure everyone is included, adequately supported, and can be successful in their goals.

Our approach

For individual students undertaking qualifications we create customised learning plans that help recognise background experience and future goals. All individual students completing single units or qualifications self-paced are provided with 1-1 virtual tutorials to support their learning completion of assessments. We have a student support officer to ensure no-one is overlooked.

We meet with clients to contextualise all our organisational programs to ensure the content aligns with jurisdictional and organisational requirements. We are very flexible in the delivery format for programs to best suit the needs of the organisation and students.

All programs are designed with best practices for adult education, and we love to incorporate contemporary case studies, collaborative learning approaches and active learning strategies as much as possible.

Programs can be delivered face to face around Australia, virtually, self-paced or in a blended model of any of the these.
