

Manage a Multi-Team Sector

PUAOPE016 Manage a Multi-Team Sector

About the program

Delivery options

This unit of competency involves the skills and knowledge required to manage a multi-team response at an incident which may be time critical and/or potentially threatening to life, property or the environment.

An individual performing in this role has the title of Sector or Division Commander and/or Level 1 Operations Officer and is delegated responsibility by either the Incident Controller or Operations Officer. The individual is responsible for managing a sector or division at an incident.

Individual students can complete this unit self-paced supported by online resources and a virtual 1-1 tutorial for each unit of study.

A group option for completion of this unit is also available to organisations. The unit can be run using a combination of face-to-face or virtual workshops and self-paced study before and after the workshops. Excluding individual work time this usually means for both virtual and onsite courses:

- virtual – 3 virtual half day sessions and short final scenario session
- onsite – approx. 2 full day sessions

Pre-requisites

It is a national requirement that individuals working in the fire sector hold either the unit PUAFIR302 Suppress urban fire or PUAFIR303 Suppress wildfire prior to being issued the PUAOPE016 Manage a Multi-Team Sector unit.

Please refer to the website for more details.

About ACIM Solutions

Our specialties

ACIM Solutions is a reputable Registered Training Organisation with a long history of working with organisations across Australia, particularly government and the emergency management sector.

Our nationally accredited scope focuses on investigation, compliance and emergency management programs at the Certificate IV, Diploma level and Advanced Diploma level. Our short course workshops complement these qualifications with a range of staff development options for those working in regulatory environments.

We also provide policy and procedure reviews, conduct independent debriefs and post incident processes following significant events.

Our team

The ACIM Solutions team come from a range of locations around Australia. They are all highly experienced and well-respected individuals in their area of expertise. The team takes pride in maintaining their industry currency and have the skills to transfer concepts and examples to a wide range of organisational settings.

From administration to learning support, our team works to encourage students in their training. We work with individuals and groups to help ensure everyone is included, adequately supported, and can be successful in their goals.

Our approach

For individual students undertaking qualifications we create customised learning plans that help recognise background experience and future goals. All individual students completing single units or qualifications self-paced are provided with 1-1 virtual tutorials to support their learning completion of assessments. We have a student support officer to ensure no-one is overlooked.

We meet with clients to contextualise all our organisational programs to ensure the content aligns with jurisdictional and organisational requirements. We are very flexible in the delivery format for programs to best suit the needs of the organisation and students.

All programs are designed with best practices for adult education, and we love to incorporate contemporary case studies, collaborative learning approaches and active learning strategies as much as possible.

Programs can be delivered face to face around Australia, virtually, self-paced or in a blended model of any of the these.
